PROJECTS:

[Link] **Freelancing:Real Estate-**FrontEnd and BackEnd Development

Tech Stack: Html, CSS, JavaScript,Formspree Api

- I developed a sleek and responsive real estate website using HTML, CSS, and JavaScript, offering users a seamless browsing experience.
- The site features dynamic property listings, interactive elements, and easy navigation.
- Additionally, I integrated a contact form to ensure potential clients can easily reach out for inquiries.

[Link] **Flavoro Food App-**FrontEnd and BackEnd Development

Tech Stack: Html, CSS, JavaScript, ReactJs,Tailwind CSS, Redux-Toolkit

- I created a dynamic food delivery app using HTML, CSS, JavaScript, React, and Redux Toolkit, offering users a smooth and responsive interface.
- The app includes a powerful search feature, an add-to-cart option, and visually appealing animations to enhance user engagement.
- It's designed to provide a delightful and efficient experience for ordering food online.

[Link] **Chatting App-**FrontEnd and BackEnd Development

Tech Stack: Html, CSS, JavaScript, ReactJs, NodeServer, Socket.io

- I developed a chatting app using HTML, CSS, JavaScript, Node.js, and Socket.io, allowing two or more people to chat together by joining groups.
- The app features robust user authentication and a sleek design, ensuring secure and seamless communication.
- It's designed to provide a real-time, interactive experience for group conversations.

[Link] **To Do List-**FrontEnd and BackEnd Development

Tech Stack: Html, CSS, JavaScript, ReactJS, Local Storage

- I developed a to-do list application using HTML, CSS, JavaScript, ReactJS, and Tailwind CSS, with full CRUD operations for task management.
- The app stores tasks in local storage, ensuring data persistence across sessions.
- With a sleek design, it offers an efficient and visually appealing way to organize daily tasks.

EDUCATION:

Mumbai University, Nerul | BACHELOR OF ENGINEERING (E&TC): CGPI-8.10 | July 2020 to July 2024
